

For Immediate Release:

Hubbell Lighting Components Appoints Brandon Cartwright Director of New Business Development

Elgin, Illinois August 1, 2017--- Hubbell Lighting Components has appointed Brandon Cartwright as the company's Director of New Business Development. Hubbell Lighting Components, which features the Thomas Research, Norlux and Hubbell Control Solutions brands, creates complete LED power and control solutions for OEMs and retrofitters.

Mr. Cartwright engages with lighting customers that include OEMs, ESCOs, retrofitters, engineers and designers. In his role as Director of New Business Development, he connects customer requirements with product development. He will support customer objectives with new TRP lighting component solutions as well as Norlux custom design, testing and manufacturing services.

Based in California's Silicon Valley, Brandon brings more than 16 years advanced technical experience in the lighting industry. He comes to the company from Xenio Systems, where he managed IoT and Smart Lighting marketing. Previously, he held engineering and marketing positions with Infineon, Cirrus Logic, Kenall Lighting and Philips Bodine.

Mr. Cartwright earned a Bachelor degree in Electrical Engineering as well as a Master's degree in Engineering Management, both from Christian Brothers University in Memphis, TN. He holds two lighting patents.

Hubbell Lighting Components General Manager John DiNardi notes "Brandon's background in intelligent lighting components makes him the perfect complement to the Hubbell Lighting Components team. His lighting experience provides him a deep understanding of customer needs which will help us create the right products for this exciting time in our industry."

Mr. Cartwright can be reached at 901-652-2726 or bcartwright@trpssl.com. Follow Thomas Research Products and Norlux on [Facebook](#) and [Twitter](#) for the latest news and updates.
