## **For Immediate Release:**

# **Thomas Research Products Moves Into New Facility**

**Elgin, Illinois** March 20, 2013--- Thomas Research Products announces that it has moved to a new larger headquarters facility. Thomas Research Products is a leading manufacturer of SSL power solutions.

The key benefit for customers is their expanded warehouse and shipping areas, which allow for increased volume and efficiency. TRP maintains a large product inventory of one of the most comprehensive LED driver product lines available in North America. The new 48,000 square foot facility is located in Elgin, Illinois.

The building also functions as a showcase: The production and warehouse areas feature advanced LED lighting all powered by TRP's drivers. The company's engineering, quality testing labs, and manufacturing capabilities have also grown in the move.

Glenn Garbowicz, TRP General Manager, said "We're excited that this move helps us to better serve our dynamic and diverse customer base, as we continue growing faster than the market. Especially with our recent introductions in the AC as well as DC LED Light Engine arenas."

Thomas Research Products is most known for high-performance LED Drivers, LED Light Engines, popular effective yet low-cost Surge Protectors, and a wide variety of Lighting Controls. The company is committed to providing superior service, superior quality and technology to OEM and Retrofit customers, and replacement parts channels.

## **About Thomas Research Products**

Founded in 1997, Thomas Research Products designs and manufactures complete OEM and retrofit solutions for solid state lighting in indoor and outdoor applications. TRP offers DC and AC LED light engines, high-performing LED drivers and power accessories, including surge protectors and step-dimming modules. The company also offers energy-saving electronic controls for commercial HID and fluorescent lighting.

"SSL Solutions Faster Than The Speed Of Light" is a registered trademark.

Thomas Research Products is located at 1215 Bowes Rd., IL 60123.
