

SSL Solutions Faster Than The Speed Of Light®

---

**For Immediate Release:**

## **LED Drivers from Thomas Research Products Listed in the UL Sign Components Manual**

**Elgin, Illinois** June 16, 2015--- Thomas Research Products is excited to announce this it now offers LED drivers listed in the UL "SAM" Sign Components Manual. This makes it easy for commercial sign companies to utilize high-performance power supplies for LED efficiency. Thomas Research Products is a leading manufacturer of SSL power solutions.

The listed drivers are the same standard LED series and high-performance PLED series models which gained TRP its reputation for quality. Included models are constant voltage drivers with 12V or 24V output.

LED series drivers include 12W, 17W, 20W, 25W, 30W, 40W, 50W, 60W and 100W models. PLED series drivers include 60W, 75W, 96W, 120W, 150W and 200W models.

These drivers feature universal 100-277V input, IP66 rated enclosures and a -30C minimum starting temperature. Drivers up to 96W provide Class 2 output, while 100-200W drivers offer isolated Non-Class 2 output. They are backed by TRP's standard 5 year warranty.

All LED Drivers from TRP offer high quality, long life, high efficiency and are cost-competitive. Information can be found on the company's website now. Availability begins by the end of 2Q 2015.

### **About Thomas Research Products and Norlux**

Thomas Research Products (founded 1997) provides complete OEM component solutions for solid state lighting in indoor and outdoor applications. Products include high-performing LED drivers, LED light engines, energy-saving lighting controls including occupancy/vacancy sensors and daylight harvesting controls, and surge protectors. Norlux (founded 2000) provides electronic, optical and thermal design services and manufacturing for custom light engines and related products. Norlux exceeds customer expectations in turn-around time and flexibility. Manufacturing in the USA.

"SSL Solutions Faster Than The Speed Of Light" is a registered trademark.
